January 2007

The long-awaited cell phone service from Minerva Valley has arrived. Late in November our towers went “live” and we began selling cell phones and cell phone service.

Our three towers (located just south of Zearing, between St. Anthony and Clemons, and on the McCallsburg water tower) are providing very good coverage and the iWireless plans are extremely competitive with the other major cell phone providers.

There are several ways to check out Minerva Valley Wireless to see if we have a plan

that is right for your needs. Internet users can go to www.iWireless.com to see the plans and phones available, or stop by our office in Zearing, or call us at 487-7399, (toll free at 1-888-487-7390) to request a brochure. We will be happy to answer any questions you may have about our new, exciting service.

Maybe you're ready for a new cell phone service, but don't want to go through the headache of getting a new number. That's no problem. Your current number can be “ported” over to our service.

If you currently have cell phone service with another provider it is a good idea to check the status of your contract with them.

We look forward to serving you in this brand new way! Call and check it out today! If you can't make it in during regular business hours, we'll gladly make an appointment for a time that works for you!
