## MINERVA VALLEY WIRELESS UPDATE

Things are progressing nicely for the new Minerva Valley Wireless service. The three tower sites have been secured and the preliminary processes have begun that need to take place before the actual construction. The timeline for service to begin this fall is holding true as of this writing.

As we get closer to actual live service we will send out information regarding plans, packages and services that will be available. Minerva Valley Wireless will be selling service in conjunction with iWireless and T-Mobile. If you have Internet access you can go to

**www.iwireless.com** to view the plans that will be available through us. Minerva Valley's new website **www.minervavalley.com** has a link to iWireless. Also, watch for the Catherine Zeta Jones T-Mobile ads on television to get an idea of what we will have to offer.

The addition of wireless telephone service to our products will greatly benefit cell phone users in our area. No more dropped calls, trying in vain to find a signal or missing important messages because the caller couldn't get through. This service will also provide more convenience for our customers. Mi-

nerva Valley will take care of all questions and service issues will be handled through our local office.

Please call our office at 641-487-7399 or 1-888-487-7390 for more information or any questions you may have on this new, exciting Minerva Valley service!
